“CNI serves neighborhoods on Chicago’s South Side. We have leveraged over \$350 million in new industrial, retail, and recreational development in a single census tract in Pullman through the New Markets Tax Credits program. Since the first NMTC investment in 2013, violent crime in the neighborhood has dropped 52% and jobs in the community have increased by 43%.”

“I am Native American and I am an enrolled member of the Oneida Nation of Wisconsin. The New Market Tax Credits are being widely used in Indian Country to help support economic development to such an underserved population. The NMTC are also being used for renewable energy for a lot of tribes. This has been very beneficial. My nonprofit has an over 51% Native American board and we want to help more Native American communities utilized the NMTCs. Having the NMTC program become permanent will help so many Native American communities.”
